Apply NOW, announcement closes 03/02/2018!!!

DMEA was established and continuously evolved by the Office of the Secretary of Defense (OSD) to jointly act as the DOD Center for microelectronics technology, acquisition, transformation, and support. DMEA is composed of highly specialized engineering facilities and microelectronic engineers that work in close partnership with the major defense contractors and the semiconductor industry to provide support for fielded systems across all U.S. military organizations. DMEA’s unique resources, combined with a transformational business model, result in a one-of-a-kind organization. Because of this distinctive capability, DMEA’s mission was extended to support the full spectrum of the U.S. Government, including other Agencies, the industries that support them and allied nations. DMEA currently supports the Army, Navy, Air Force, Marines, Department of Homeland Security, Department of Energy, Department of Transportation, Department of Justice, as well as many defense contractors and international programs from the United Kingdom and other allies. DMEA’s microelectronics specialists produce solutions that support critical active military operations. DMEA’s research activities advance microelectronics technologies to support current and future warfighter needs. We are looking for bright engineers to join the DMEA workforce. Career opportunities are posted at USAJobs.gov.

Currently looking for the following Engineering Disciplines:
- Electrical Engineering
- Mechanical Engineering
- Materials Engineering
- Industrial Engineering

Apply at: www.usajobs.gov
Keyword: DMEA

Announcement Number(s):
- WTKC175104178733PR
- WTKC185040940319D

***IMPORTANT (Note: If you will be completing your education/graduating in one of the listed engineering disciplines, within the next 90 days, upload your unofficial transcripts and select “Yes” when asked if you are a “recent graduate.”)***

Apply NOW, announcement closes 03/02/2018!!!

Upcoming events:
DMEA will be attending Cal Poly’s Spring Career Fair Wednesday, April 18 and Thursday April 19, 2018. See you there!
